

IDS Leak Detector Kit

IDS Leak Detector Kit

Increasing Mobility with Field Testing Capability

Input Ball Valve
Filter Assembly
Filter Tube
Glass Bowl
Element Retainer
Pressure Regulator
Digital Pressure Gauge
Purge/Leak Test Valve
Flow Meter
Valve Stem Adapter Handle
Industrial Quick-Disconnect Hose Coupling Plug

Originally developed by SSAI (a KIHOMAC company) to support purging and leak testing of systems requiring dry internal environments. KIHOMAC introduces a portable device capable of finding vacuum leaks in a wide range of scenarios ensuring safety with your pressurized system.

The IDS Leak Detector Kit includes features that other purging kits omit: separate pressure Input Ball Valve for shut off of Compressed Nitrogen or Air pressure source (up to 150 PSI), high quality particulate and liquid Filter Assembly with a spare replacement Filter Tube, precision 0-10 PSI Pressure Regulator with high flow purge capacity, Digital Pressure Gauge, Valve Stem Adapter Handle, and an integral Purge/Leak Test Valve with Flow Meter.

Engineered to reduce cost and improve reliability and maintainability.

Whether you need this Kit as-is, want some other item reverse engineered, or have problems, we have solutions – consider KIHOMAC to get your Problem
